

Ana Mandras

Anesthesiology specialist

Institute for mother and child health care

Description

Institute for mother and child health care is tertiary health care pediatric hospital. It consists of Pediatric Clinic and Clinic for Pediatric Surgery.

Department of anesthesiology is engaged in both pediatric and pediatric surgery pathology. Pediatric surgery covers all pathology except neurosurgery. We provide around 5000 anesthetics per year for invasive and noninvasive procedures as well as surgical procedures. We have around 100 cardiosurgical operations per year.

Besides clinical work, we are engaged in academic work as well as in different field scientific work.
